PROPOSE FREE TRADE IN FOOD
For the purpose of exchanging views
on the feasibility of negotiating inter-
national treaties under which all com-
modities would remove tariffs on food
products, Foreign Minister Puyresorden
has called a conference at Buenos
Ayres of all the diplomatic representa-
tives of Pan-American nations ac-
credited in Argentina.

The project is described as a human-
itarian means of reducing the world
wide cost of living, and the possibility
of its adoption by all the countries
in the world is contemplated.

The Argentine Foreign Office said
that "free trade in food" not only
would alleviate human sufferings but
from a commercial point of view, would
benefit both export and import of
products in every country and thus
more than compensate for losses
in revenue.

Mr. Puyresorden received a memorandum
on the project for forwarding to his
countrymen. The "free trade in food"
which the Argentine government pro-
poses a free interchange include rice,
wheat, meat, milk, butter, barley, oil,
sugar, corn, fruit, and various other
commodities. The project would
be included as soon as regula-
tions in force in some countries against
the export of foodstuffs are modified. The plan
contemplates a provision that advance
notice of one year for partial or com-
plete consummation of the agreement
must be given.

CATTLE SHIPMENTS
Wainwright Shippers has shipped
several quantities of cattle during the
last month to the markets. Many ship-
ments were made up of stock that had
been brought in during the summer for
cattle purposes and were sold this
week probably at a slight loss over-
all as the drop in the market. There
is no doubt, though, that many of the
farmers have been stamped by the
early severe winter, and the prospect
of a feed shortage and have sold all
their breeding stock in order to
conserve feed.

Stock raising is an industry that is
not built up in a day or a year, and
quite a few who are in a position to
keep their herds together, will certainly
profit by it next spring. Alberta
is bound to have a shortage next sum-
mer, as in the south they are in a much
worse condition as regards feed, and
thousands of cattle are being rushed
to the market.

While the winter started off with a
predictable, don't be better. Last sum-
mer thousands of dollars were needled,
by wealthy ranchers running all over
southern Alberta and British Columbia
looking for hay, and it eventually turned

Make Your Dreams Come True

For parents dream of a bright future
for their children.

They dream of the literary and musical
education they are going to give their
daughter, and of the high position she will
take in her sphere of womanhood.

They dream of the education they are
going to give their son and vision him some
day as a clergyman, a famous lawyer, an
eminent physician, a prominent financier,
or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight,
planning and money.

To provide the money what plan so
wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory
Bonds for their children in 1917 and 1918

Surely you will be among the thousands
of loving parents who will buy Victory
Bonds for their children—this year?

Victory Bonds may be bought on instal-
ments at such easy terms that every parent
who so wishes may buy

WAINWRIGHT MUST NOT FAIL

**WAINWRIGHT is allotted \$75,000 of the
VICTORY LOAN 1919.**

That was the amount we are expected to lend to Canada to "carry on" and "clean up."

We are behind in our allotment.

This should not be.

The importance of reaching our objective is one that every citizen of Wainwright should regard as a personal matter.

If each will say to himself -- "I will do my part -- large or small to put Wainwright allotment over the top" -- together we can surely do it.

Every citizen has a responsibility.

The time is short.

Prompt action is necessary.

As a matter of local pride - as a matter of national service - as a matter concerning our own prosperity - let us unite and act, so that when the VICTORY LOAN 1919 closes, Wainwright will once more have done her part well.

Victory Loan 1919 to Bridge Between War and Peace.

Agreeing and Federal Property of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this story? Or have you not?

The Victory Loan of 1919 stands out as the bridge between war and peace. The war is over. Our boys are back. The reconstruction period is dawning and we all must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expense of demobilization is heavy, and there is still much to be done. Now that our men are back, let it not be said that we repudiated the debt for bringing them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-establish himself in civil life, and production is given a boost. Of the total amount of the forty-fourth loan, \$24,000,000 has been appropriated to finance these soldier-farmers.

Penalties to the disabled and dependents of our glorious dead, as well as the authorized expenditures for other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's property is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment, Victory Bonds are eminent. Paying 5 1/2 per cent, selling above par on the open market, and guaranteed by the Dominion.

What further reason can you have for hesitating? The Victory Loan 1919 is a great success, and all right-thinking citizens will do their part to see that such a result is obtained.

TO CARE FOR WOUNDED

Money From Victory Loan Will Be Used to Re-establish

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. In August last 3,903 soldiers suffering from this disease had been returned to Canada. They were placed in sanatoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained and cared for under the head of capital war outlay.

All of these men and some 30,000 other disabled or ill will be cared for with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

Credits Must Be Established for Sale of Surplus Products.

Success of Victory Loan 1919 Will Insure Steady Markets for Farmers.

It takes some six bushels of wheat to feed the average person in Canada annually. Roughly, therefore, the eight million people here consume about 48,000,000 bushels each year. But even in a poor year the crop is some five times that amount, and the surplus must be sold. If the farmers are to get a return for their time and labor, but the sale of the surplus must be made. Great Britain, which provides our greatest market, has not the ready cash, and Canadians must find means of raising the money. Hence the Victory Loan 1919.

In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of our surplus grain, the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sways the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your envelope may be always filled, as will follow the success of the Victory Loan.

Victory Bonds are the fodder that feeds the military of Canada. In special world war time a full speed.

NOTICE

WAINWRIGHT STAR

NEW MAP OF PEACE RIVER COUNTRY

In the province of the Dominion there is no territory that appeals more to the man of vision than that of Northern Alberta.

Three thousand square miles were turned in this region, before great new highways connected Edmonton with Calgary, Peace River, Spirit River and Grande Prairie were the first to reveal the tremendous opportunities this country offers to the agricultural and mining, logging and timbering.

The returned soldier farmer is putting his way of life to the test on vacant Dominion lands and to reap wonderful crops from the remarkably fertile soil. Lands that afford good grazing for cattle are being quickly taken up. With the excellent natural resources of Northern Alberta, a great future in the raising of its stock and in the development of the dry farm stocker within the short season is a great fact and one which is quickly becoming a reality.

The mineral wealth and prospect have been attracted by the mineral possibilities but they have obtained at yet but a glimpse into the hidden treasure. Lead, gold, iron and nickel ore have been discovered in the Peace River and Athabasca. The Rocky Mountain range above Hudson Hope shows signs of coal of excellent quality while coal measures of probably very large extent outcrop on the Peace and on the headwaters of Smoky River.

Opinion often associated with this has been found in the valleys of the Peace and Slave Rivers, and some beds 20 to 40 feet in thickness are exposed in the Northern Alberta and Peace Point. But it is in the discovery of the latest petroleum resources that tremendous possibilities confront not only Alberta and Canada but the whole world.

It is in the discovery of the latest petroleum resources that tremendous possibilities confront not only Alberta and Canada but the whole world. It is in the discovery of the latest petroleum resources that tremendous possibilities confront not only Alberta and Canada but the whole world.

Among other assets of this northern region first mentioned the great fresh water fishing area. The commercial fisheries established at Lake Athabasca, Lesser Slave and Athabasca are making considerable progress in their output of whitefish, trout and pickerel.

A new edition of the Northern Alberta Homestead may be by the Department of the Interior comes at a very propitious time. A comparison with previous issues makes it apparent the increased knowledge that has been acquired about this area and shows the gradual expansion of Dominion possibilities. North of the 55th parallel of latitude the area is open to be most favored by settlers from Great Britain, Peace River, Waterholes, Foulie, Spirit River, McLaughlin and High Prairie districts. Here and there on the map one can see patches of dark green indicative of growing while throughout these regions all those lands shown in light yellow are still available to the returned soldier.

A copy of this map and other publications requiring climate, transportation facilities, nature of soil, may be obtained free of charge upon application to the Superintendent, Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

SERVICE FIRST

You will find us always at your service. It has been and is now our aim to make this store a good place for you to buy your tobacco, not only in the class of tobacco carried and the selling of the same at reasonable price, but also the service which pertains to the handling of the goods.

OUR STOCK IS LARGE

By having a big stock we are in position to satisfy almost any customer and by keeping clear of cheap goods we can recommend to you any articles which you may purchase from us.

OUR PRICES ARE REASONABLE

Many times have people from other districts told us that our prices are lower than in their home town. This is largely due to the fact that when prices were soaring we put in a large stock and at times were selling some lines of goods lower than wholesale prices.
